

## **Here we go again...again**

This was going to be a short newsletter just to wish everyone a happy Christmas and New Year. Unfortunately, with yesterday's news that Milton Keynes is now in Tier 4 the Committee has concluded that we have no alternative but to close the Shed again with immediate effect until the area moves back to Tier 3 and hopefully the majority of older and vulnerable members have received the vaccine. I know this will be a big disappointment to those of you who were just getting back into regular attendance and to those in the social group who were hoping to see each other again.

As before, if anyone wishes to visit the Shed to borrow tools or to collect some materials or a project then I am happy to open up if you contact me by email.

I'll be in touch again when I have better news but in the meantime I hope everyone stays safe and manages to find something to enjoy and keep themselves busy over the holiday period.

**Best wishes to all,**

**Nigel**
